Chief Shane Ray, State Fire Marshal

June 26, 2014

Dear South Carolina Liquefied Petroleum Gas License or Permit Holder:

This letter announces the extension of the renewal date for your 2014 - 2016 South Carolina Liquefied Petroleum Gas License or Permit.

Unfortunately, due to circumstances beyond our control the Office of State Fire Marshal is unable to complete the processing of all renewal applications in a timely manner prior to the expiration date of your current Liquefied Petroleum Gas License or Permit on June 30, 2014. As a result, it is important to keep this letter posted with your current 2012 – 2014 License in your place of business, or in your possession along with your 2012 – 2014 Operator Permit while engaged in Liquefied Petroleum Gas operations. This letter serves as a “Letter of Authorization” (LOA). Please note that this LOA is contingent upon your remaining entitled to continue operations under your current 2012 - 2014 Liquefied Petroleum Gas License or Permit.

Until the completion of the processing of your application, you may also supply a copy of this LOA as needed to interested parties (distributors, other licensees/permit holders, or insurance companies). This LOA is valid until July 31, 2014, or until you receive your permanent 2014 - 2016 South Carolina Liquefied Petroleum Gas License or Permit.

If your renewal application is still pending after the valid date listed above, our office will provide you with an updated LOA which will remain valid for an additional period of time or until the completion of your application.

If you have already received your 2014 - 2016 South Carolina Liquefied Petroleum Gas License or Permit please disregard this letter.

Lastly, we apologize for this delay. Our office is working to resolve this matter as quickly as possible.

Please direct any questions or concerns regarding this matter to my attention.

Sincerely,

Ray Hoshall
Chief of Licensing and Permitting
Division of Fire and Life Safety
Office of State Fire Marshal
