

Electric Vehicle Charging Station Emergency Modification Requests – Special Committee

To Interested Parties:

At their meeting on February 27, 2024, the South Carolina Building Codes Council called for a special committee to be formed to hear and provide a recommendation to the Council for the disposition of the electric vehicle charging station emergency modification requests presented at the hearing.

Council staff is calling on interested parties who wish to participate in the special committee process to contact the Council at contact.bcc@llr.sc.gov no later than **May 16** with the following:

- A written request to participate on the special committee to provide input and address the emergency modification requests;
- Your organization or affiliation;
- Written authorization to represent your organization or affiliation, if you are not an officer, president, chairperson, general partner or chief executive officer.
- Your qualifications to speak on the technical aspects of the modification requests.

The Council will consider the nominations for the committee at their meeting on May 21, 2024.
