OFFICE OF STATE FIRE MARSHAL
EMERGENCY MEDICAL SERVICES TRAINING
STATE FIRE ACADEMY

Introduction

On February 1, 1994, the South Carolina Legislature created the South Carolina Department of Labor, Licensing and Regulation (LLR) with Act 181 by combining 41 separate state agencies, including the Department of Labor, the State Fire Academy, the State Fire Marshal's Office, and 38 professional and occupational licensing boards. Legislators envisioned an organization that would promote efficiency and build accountability while delivering the highest level of customer service. The 1994 legislation empowered the Governor to appoint a director of LLR with the advice and consent of the Senate.

In 2010, the South Carolina Legislature transferred the Soil Classifiers Advisory Council and the Board of Landscape Architectural Examiners to LLR from the Department of Natural Resources, bringing the total number of boards to 40.

Currently, LLR administers more than 70 programs, from Occupational Safety and Health to professional and occupational licensing to educating the fire service.

LLR Locations

LLR's Office of the Director, Office of Communications and Governmental Affairs, Division of Administration, Division of Labor, Office of General Counsel, which includes the Office of Advice Counsel, and the Division of Professional and Occupational Licensing (POL), are located within the Kingstree Building at 110 Centerview Drive in Columbia. The Division of Fire and Life Safety is located at the S.C. Fire Academy campus, 141 Monticello Trail, Columbia.

Agency Overview

The mission of the Department of Labor, Licensing and Regulation is to promote and protect the health, safety and economic wellbeing of the public through regulation, licensing, enforcement, training and education.

Our mission goes hand-in-hand with the Governor's effort to raise personal incomes of South Carolinians by creating a better environment for economic growth, delivering government services more openly and efficiently, improving quality of life, and improving the state's education. LLR accomplishes its mission by:

- Promoting an environment of growth and innovation that allows regulated businesses and professionals to operate successfully and free of overly restrictive and unwarranted regulation.
- Providing cost efficient administration and periodic review of licensing and certification programs to assure the appropriate protection of the public.
- Conducting required inspections, complaint investigations, and enforcement activities in a manner that is fair, accountable and cost effective.
- Providing businesses and industry, the fire service, its licensees and the public relevant training and education programs.

Office of the Director

Director:

Richele K. Taylor

The Office of the Director is comprised of the Director, the Office of Communications and Governmental Affairs, and the Office of Information Technology.

The Governor, with the advice and consent of the Senate, appoints the Director of the Agency. Governor Nikki R. Haley appointed Richele K. Taylor as Director on December 8, 2014, and she was confirmed by the Senate on February 12, 2015.

Office of Communications and Governmental Affairs

Counsel to Office of Communications and Governmental Affairs: **Holly Beeson**

Communications Director:

Lesia Kudelka

The Office of Communications promotes and explains to the public the Agency's goals, activities, and services using a variety of media. The director serves as the Agency spokesperson to the media for all programs and manages requests from the public for information requested under the South Carolina Freedom of Information Act to assure compliance with the law. The director also serves as the Agency's Ombudsman.

Requests for Information	
FOIA	1177
Subpoenas	61
Total	1838

Director of Governmental Affairs:

Rebecca Leach

The Office of Governmental Affairs serves as a liaison between the Agency and the Governor's Office, legislators, legislative staff, and other state and federal agencies. The Office is also responsible for coordinating, monitoring, and reviewing proposed legislation, amendments, regulations, and approved bills that are initiated and/or affect boards, commissions, and divisions administered by LLR. This includes all relative legislation drafted and introduced by parties external to the department. Additionally, the office assists with training and educating LLR staff, boards, and commissions regarding the legislative process.

Governmental Affairs – Summary of Legislation Passed

The 2015 meeting of the S.C. General Assembly began the first half of a two-year legislative session.

Bills Reflecting Statutory Changes (by Act #)				
Act #	References	Subject	Board/ Commission	Effective Date
282	8-13-130, 8-13-310, 8-13-320, 8-13-322, 8-13-530, 8-13-535, 8-13-540, 8-13-550	<p>Summary: Ethics Reform Act</p> <p>An act to amend Section 8-13-130, Code of Laws of South Carolina, 1976, relating to the state ethics commission's authority to levy enforcement and administrative fees, so as to authorize the legislative ethics committees to levy enforcement and administrative fees; to amend Section 8-13-310, as amended, relating to the composition of the state ethics commission, so as to reconstitute the state ethics commission; to amend Section 8-13-320, as amended, relating to the duties and powers of the state ethics commission, so as to cite additional legal authority authorizing the state ethics commission to initiate and receive complaints and to provide that the filer of a groundless complaint may be ordered to reimburse the commission for costs associated with the investigation and disposition of the complaint, to authorize commission staff to participate in facts sufficiency determinations, to revise the procedures by which the commission, upon its own motion, may file a verified ethics complaint, to revise the commission's required actions and treatment of complaint information following a dismissal or a finding of probable cause; to revise the procedures by which the commission determines probable cause; to provide that commission hearings must be open to the public, and to revise the procedures by which the commission issues formal advisory opinions; by adding Section 8-13-322 so as to prohibit anyone who is the subject of a pending ethics investigation or open complaint from contacting or attempting to contact, either directly or indirectly, a member of the state ethics commission or a legislative ethics committee; to amend Section 8-13-530, as amended, relating to the powers and duties of the legislative ethics committees, so as to revise the committees' functions and responsibilities and to require the legislative ethics committees to refer certain ethics complaints to the state ethics commission for investigation; by adding Section 8-13-535 so as to establish procedures for the legislative ethics committees to issue formal advisory opinions; to amend Section 8-13-540, as amended, relating to the manner in which the legislative ethics committees conduct investigations and hearings, so as to establish procedures for forwarding certain ethics complaints to the state ethics commission for disposition and to make other conforming changes; and to amend Section 8-13-550, relating to the consideration of an ethics committee report by the house of representatives or senate, so as to eliminate the confidentiality exception for private reprimands.</p>	Agency / Boards	04/1/17
274	40-69-305, 40-69-300, 40-69-295	<p>Summary: Veterinarians and Prescription Drugs</p> <p>An act to amend the Code of Laws of South Carolina, 1976, by adding Section 40-69-300 so as to provide all animal shelters that provide veterinary services in this state are subject to supervision and regulation by the Board of Veterinary Medical Examiners, to require animal shelters and veterinarians who provide veterinary services in animal shelters to maintain and report certain data to the department of labor, licensing and</p>	Vets / Pharmacy	06/15/16

		regulation, to require the department make these reports available on its internet website, to provide the range of veterinary services allowed in animal shelters, to provide certain record keeping requirements, and to provide necessary definitions; by adding Section 40-69-305 so as to prohibit dispensing prescription drugs to owners of end users for the treatment of bodily injuries or diseases of animals in specific circumstances and to provide penalties for violations; to amend Section 40-69-295, relating to mobile veterinary facilities, so as to require these facilities must identify the closest local emergency veterinary services facility and communicate it in a certain manner, to prohibit the operation of mobile veterinary facilities within specific distances of privately owned veterinary practices, and to define necessary terms.

The above list of Acts and regulations is strictly for reference only. Neither the Department of Labor, Licensing and Regulation nor any of its employees make any warranty, express or implied, or assumes any legal liability or responsibility for the accuracy or completeness or usefulness of this information, or represents that its use would not infringe privately owned rights.

Office of Information Technology

Chief Information Officer:

Matt Faile

The Office of Information Technology provides expertise in development, implementation, security, and maintenance of computer-based information systems and coordinates all information technology activities for the Agency. This Office also manages the Agency's E-commerce presence.

Division of Administration

Deputy Director:

Farrar Stewart

The Division is responsible for providing administrative support services for the Agency in accordance with state and Agency policies and procedures and governing federal, state, and local regulations. The Division consists of four offices: Budget, Finance, Human Resources, and Procurement.

Assistant Deputy Director:

Laura Pace

- The Budget Office is responsible for coordinating the Agency's budget and federal grants.
- The Finance Office is responsible for directing fiscal functions of the Agency.

Human Resources Director:

Kathryn Britt

- The Human Resources Office is responsible for providing services in the areas of consulting, policy development, employee relations, compensation, recruitment, employee training and development, and employee benefits.
- The Procurement Office is responsible for directing and providing expertise in Agency purchasing, property and vehicle management, employee driver training records, and mailroom services.

Office of General Counsel

General Counsel:

Melina Mann

The General Counsel provides litigation and advice services to LLR programs and oversees the Agency's Office of Disciplinary Counsel and Office of Advice Counsel.

Disciplinary Counsel:

Pat Hanks

The Office of Disciplinary Counsel handled the following cases during FY 2016:

Division of POL cases opened	1037
Division of POL cases closed	743
Division of OSHA cases opened	25
Division of OSHA cases closed	30
Division of Labor cases opened	0
Division of Labor cases closed	0

*Includes cases carried forward from FY 2015.

Chief Advice Counsel:

Darra James Coleman

The Office of Advice Counsel provides legal advice to all boards, commissions and panels, and administrative staff. The Office essentially serves as the "in-house law firm" for these entities. In addition to assisting these them with conducting their meetings, Advice Counsel handles appeals on non-disciplinary issues, performs special research projects, offers training, and provides support to administrative staff with resolution of legal questions arising from the licensure process.

Division of Labor

Chief of Labor:

Kristina Baker

South Carolina and federal laws are the source of various rights employers and employees have in their employer/employee relationships. LLR's Division of Labor is one of several state and federal agencies that administers these laws. Programs included in this Division are Occupational Safety and Health, the Office of Elevators and Amusement Rides, Management Mediation, and the Office of Immigrant Worker Compliance.

OFFICE OF OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION (OSHA)

Administrator:

Dottie Ison

Compliance Manager:

Anthony Wilks

The purpose of the state Occupational Safety and Health Act is to ensure working people a safe and healthful working environment. South Carolina OSHA (SC OSHA) is committed to strong, fair, and effective enforcement of safety and health requirements in the workplace. South Carolina OSHA compliance officers are experienced, well-trained safety and health professionals who work to assure compliance with occupational safety and health requirements, and to help employers and workers reduce on-the-job hazards and prevent injuries, illnesses, and deaths in the workplace.

Inspections are initiated without advance notice and are based on the following priorities:

- Imminent Danger
- Fatalities or Catastrophes
- Worker Complaints and Referrals
- Follow-up Inspections
- Target Inspections – Particular Hazards, High Injury/Illness Rates

SC OSHA is required by law to issue a citation and proposed penalty within six months of a violation's occurrence. Citations describe the alleged violation, list any proposed penalties, and provide a deadline for correcting the alleged hazards. Violations are categorized as other-than-serious, serious, willful, repeat, and failure to abate. Penalties may range up to \$7,000 for each serious violation and up to \$70,000 for each willful or repeated violation. Penalties may be reduced based on an employer's good faith, inspection history, and business size.

When citations are issued, the employer has an opportunity to request an informal conference to discuss the citations, penalties, abatement dates, or any other information pertinent to the inspection. The Agency and the employer may work out a settlement agreement to resolve the matter and to eliminate the hazard. SC OSHA's primary goal is to get hazards corrected and maintain compliance rather than issuing citations or collecting penalties.

If a settlement cannot be reached, employers have 30 working days after receipt of citations and proposed penalties to formally contest the alleged violations and/or penalties by sending a written notice to the South Carolina Administrative Law Court. Alternatively, citations, penalties, and abatement dates not challenged by the employer or settled, become a final order of the Agency.

Statistical Information FY 2016		
OSHA Inspections:	Number	Percentage
Total	784	100%
Safety Inspections	697	88.9%
Health Inspections	87	11.1%
Inspections by Type

Unprogrammed-Related	14	1.8 %
Monitoring	0	0.0 %
Number of Violations:		
Total	991	100%
Serious	751	75.8%
Other-than-Serious	233	23.5%
Repeat	2	0.2%
Willful	5	0.5%
Inspections resulting in findings of in-compliance	362	46.2%

Integrated Management Information System

Coordinator:

David Parker

South Carolina, in accordance with federal standards and regulations, administers its own occupational safety and health program. The Program's objective is to help insure South Carolina workplaces are safe and healthful places for all workers. The Integrated Management Information Systems (IMIS) department provides statewide inspection data to Federal OSHA as required by law. IMIS also compiles and publishes safety data and statistics to state and local governments, which, in part, helps guide policy deliberation and decisions. It is the responsibility of the IMIS department to collect, analyze, and transmit accurate inspection data to federal OSHA on a daily basis. Internally, that same data is analyzed with an eye towards helping SC OSHA continuously improve both its safety inspection and consultation programs.

- For the past seven years, South Carolina has utilized an in-house data collection and information management system. The SC OSHA Redesign and Enhancement (SCORE) Information System, running on the OSHA Express™ software platform, was built and implemented in 2009. In addition to a "real time" data analysis capability, the system provides significant cost avoidance through the reduction of paper files. In fiscal year 2016, SCORE obviated the need to maintain paper inspection reports for 784 inspections and 902 consultation visits. SCORE, not only provides an efficient means of data entry and secure storage, it also allows SC OSHA to retrieve and analyze that data instantaneously.
- During this past year, Federal OSHA has continued to implement its new OIS or OSHA Information System. On July 17, 2015, SC OSHA was the first state with its own in-house information system to successfully implement the OSHA Express to OIS system interface. This interface allows SC OSHA to continue using its OSHA Express System to provide required data to the new Federal system similar to how data was supplied using the outgoing Integrated Management Information System (IMIS).

Technical Support and Standards Office

Coordinator:

Gwendolyn Thomas

The purpose of SC OSHA's Technical Support Office is to develop, manage, and implement Federal OSHA's five-year Strategic Plan, generate quarterly and annual reports, and assist the SC OSHA Administrator with LLR's Strategic Plan. The Technical Support Office also reviews all Federal OSHA documents and recommends to the SC OSHA Administrator actions such as adoption of new standards promulgated by Federal OSHA, amendments to existing standards, review of Federal OSHA Compliance Directives for state implementation, and coordinates all public hearings for the adoption of standards and regulations.

This area also evaluates the validity of temporary and permanent variances. An employer may apply for a variance from a standard based on the following reasons:

- the employer's practices do not follow the letter of the standard but do afford employees protection equal or superior to that specified by the standard;
- unavailability of personnel, materials or equipment; or
- construction is needed that cannot be completed by the effective date of the standard.

The Technical Support Office evaluates situations to insure alternative protections are being afforded to employees, and submits recommendations regarding the variance application to the SC OSHA Administrator.

The SC OSHA Standards Area assists many employers, employees and compliance personnel who desire to eliminate safety and health workplace hazards. Electrical hazards, machine guarding problems, bloodborne pathogens, injury and illness recordkeeping, and matters regarding fall protection are examples of conditions for which information and assistance is frequently requested.

Technical Support and Standards Offices performed the following activities during the FY 2016:

SC OSHA promulgated revisions to seven existing SC OSHA Standards and Regulations and one new subpart, which contained 13 standards. The following standards and regulations were adopted during two public standard adoption hearings on July 22, 2015 and February 2, 2016:

- Electric Power Generation, Transmission, and Distribution, Appendices A-3 and A-5 (§1910.269)
- Electrical Scope (§1910.331)
- Safety Training and Education (§1926.21)
- Electric Power Transmission and Distribution (§1926.950)
- Electric Power Transmission and Distribution Enclosed Spaces (§1926.953)
- Working on or near exposed energized parts (§1926.960)
- Definitions for Electric Power Transmission and Distribution (§1926.968)
- Confined Spaces in Construction (§§ 1926.1200-1213)

Office of Occupational Safety and Health Statistics (OSH)

Bureau of Labor Statistics

Coordinator:

Felecia G. Busby

The OSH Statistics Section, in cooperation with the [U.S. Department of Labor, Bureau of Labor Statistics](#), conducts the annual Bureau of Labor Statistics (BLS) Survey of Occupational Injuries and Illnesses and the [Census of Fatal Occupational Injuries \(CFOI\) Program](#). The survey measures non-fatal injuries and illnesses only and excludes the self-employed, farms with fewer than 11 employees, private households, and Federal government agencies. The CFOI program compiles detailed information on all work-related fatal injuries in South Carolina.

A relatively small percentage of the total private sector employers and local government agencies, are selected to report on the annual BLS survey. Data collected in the survey is based on uniform record-keeping requirements, which are mandatory under provisions of both the 1970 Occupational Safety and Health Act and corresponding state laws.

The data compiled in the Survey of Occupational Injuries and Illnesses and the CFOI Program are used to provide a management tool for safety engineers and persons interested in measurements of work injuries and illnesses. They use the data to develop strategies aimed at reducing fatal and non-fatal injuries and illnesses on the job.

*2014 Occupational Injuries and Illnesses Statistics	
Number of employees in SC private sector workforce	1,556,577
Number of employees in SC public sector workforce	306,097
Number of businesses sampled – private and public	3,110
Number of reported private sector injuries/illnesses	34,500
Injury and Illness rate per 100 employees – private sector	2.8
Number of reported public sector injuries/illnesses	11,000
Injury and Illness rate per 100 employees – public sector	4.4
*2014 CFOI Statistics	
Number of fatal occupational injuries	64
- Private sector	59
- Public sector	5

*Data represents the most current year available from the BLS.

Office of OSHA Voluntary Programs (OVP)

Manager:

Harvey Jessup

The Office of OSHA Voluntary Programs (OVP) provides safety and health courtesy inspections, technical assistance, and safety and health training to aid the business community in voluntary compliance with all areas of the Occupational Safety and Health Act. In addition, this area also provides recognition and outreach programs such as the Palmetto Star, SHARP, Alliances and Partnerships. These services are free to both public and private sector employers. Safety and health consultations are confidential. Training resource materials, brochures, booklets, audio-visual programs, seminars, lectures and extended courses have been developed to assist employers in providing employees a safe and healthful work environment.

The Voluntary Protection Program (VPP), or Palmetto Star Program, and the Safety and Health Achievement Recognition Program (SHARP) recognize manufacturing facilities with exemplary safety and health records and reduced injury and illness rates.

Consultation Services

Manager

Harvey Jessup

The goal of this program is to make worksites safer. Free consultations by safety and health professionals with expertise in safety and health workplace issues are provided to businesses and public sector employers. Consultants help employers identify and correct specific hazards, provide guidance in establishing or improving an effective safety and health program, and offer training and education for employers, supervisors, and employees. The primary target of the program is smaller businesses in higher hazard industries or with especially hazardous operations. Consultations are independent of SC OSHA's enforcement activity, and records are kept confidential and separate from OSHA's enforcement program. The only obligation of the businesses using these services is to correct, in a timely manner, any job safety and health hazards found during the consultation.

Consultation Activity for FY 2016	
Number of Consultation requests	902
Number of Employees helped	19,055
Number of Workplaces visited	902
Number of Workplaces achieving compliance	902
Number of Workplaces referred to compliance	0

Amount saved in OSHA fines by businesses achieving compliance

2.5M	2.1M	1.4M	1.5M	1.5M	1.6M	1.8 M	1.7M

Education and Training

Manager:

Harvey Jessup

Coordinator:

Van Henson

Training classes are provided for employees and employers covering key safety issues facing workplaces today, such as SC OSHA's Rights and Responsibilities, Lockout/Tagout, and violence in the workplace. This service within OSHA Voluntary Programs provides a variety of training programs and presentations designed to reduce or eliminate safety and health hazards in the workplace. Upon request, training is available to employers and employees in the public and private sector and may take place on-site (requiring participation of 12 or more employees) or as a result of participating in one of the regional training programs coordinated by the training staff. In FY 2016, more than of 350 training programs were delivered to employees throughout the state, resulting in more than 8,900 employees trained on various SC OSHA regulations and other safety and health issues.

Education and Training Provided for FY 2016	
Number of training programs:	352
Number of contact hours:	11,325
Number of trainees:	8,932

General industry, health, and construction areas are covered in the training curriculum. Examples of training programs offered include, but are not limited to:

- OSHA Inspection Process
- Bloodborne Pathogens
- Lockout/Tagout (LOTO)
- Trenching/Excavation
- Hazard Communication
- SC SMART- Safety Management & Accident Reduction Training
- Fall Protection (Construction)
- Personal Protective Equipment
- Violence in the Workplace
- Scaffolding (Construction)
- Permit Required Confined Spaces
- Industrial Trucks (Forklifts)
- OSHA Recordkeeping
- Electrical Safety

Recognition and Outreach

Manager:

Harvey Jessup

Coordinator:

Sharon Dumit

This area is responsible for the recognition programs Palmetto Star (VPP) and the Safety and Health Achievement Recognition Program (SHARP). It is also responsible for alliances and partnerships with South Carolina businesses and associations.

Palmetto Star

The Palmetto Star Program recognizes qualified employers who exceed the requirements of the Occupational Safety and Health Act of 1970 in providing its workers a safe and healthy worksite. Any employer in North American Industry Classification System (NAICS) Codes 31-33 may apply.

Palmetto Star sites are not expected to be perfect. However, they are expected to effectively protect their workers from workplace hazards through safety and health systems. A Palmetto Star site is one that has proven it is able to function independently of OSHA and is self-sufficient in its ability to control hazards at the worksite.

To qualify, an applicant must demonstrate management's commitment to safety, assess hazards that may be present within the workplace, maintain a system for hazard correction and control, provide employees safety and health training, and assure employee participation in safety and health programs. Finally, the company must have a total injury/illness incident rate and a total lost workday incident rate that is 50 percent or below the state average for the applicant's industry for each of the last three years.

Palmetto Star Program	
Number of active approved Palmetto Star sites	39
Number of initial evaluations conducted	1
Number of initial approvals for FY16	1
Number of three-year re-evaluations conducted	12

Safety and Health Achievement Recognition Program (SHARP)

The SHARP program is designed to provide incentives and support to employers that implement and continuously improve their safety and health management systems at their worksites. The standards required to get into the SHARP are less stringent than that of the Palmetto Star program. It is a good alternative for a smaller company that may not have the resources to become a Star site or as a stepping-stone to becoming a Star. Acceptance into SHARP by SC OSHA is an achievement of status that makes companies stand out among their peers as a model for worksite safety and health. SHARP participants are exempted from SC OSHA programmed inspections.

Requirements for participation in the SHARP program are:

- Receive a full-service safety and health consultation visit and a comprehensive review of safety and health management systems. In addition, all hazards found by the consultant(s) must be corrected.
- Receive a score of at least two on all 50 basic attributes of the Form 33. Additionally, all “stretch items” of the Form 33 must be scored. “Stretch items” are those safety and health attributes above the basic attributes of a foundational safety and health management system, such as employee participation in hazard prevention and control activities within the worksite.
- Agree to notify the Office of OSHA Voluntary Programs and request a subsequent on-site consultation visit when changes in working conditions or work processes occur that may introduce new hazards into the workplace.
- Have a total injury/illness incident rate and a total lost workday incident rate that is below the state average for the applicant's industry for the previous year.
- Submit a request for SHARP participation.

New site(s) approved in FY 2016

Alliances and Partnerships

The Alliance Program works with groups committed to safety and health, including businesses, trade, or professional organizations, unions and educational institutions. The purpose is to leverage resources and expertise, to develop compliance assistance tools and resources, and share information with employers and employees to help prevent injuries, illnesses and fatalities in the workplace.

There are many benefits to participating in an Alliance. The agreements, which are signed for two years, help organizations to:

- Build trusting, cooperative relationships with OSHA.
- Network with others committed to workplace safety and health.
- Leverage resources to maximize worker safety and health protection.
- Gain recognition as proactive leaders in safety and health.

Organizations may be cooperating with OSHA for the first time, or they may be continuing existing relationships with the Agency established through other cooperative programs.

Office of OSHA Voluntary Programs: Current Alliances

Currently, the Office of OSHA Voluntary Programs is working on an Alliance Agreement with the South Carolina Hospital Association for the last Quarter of 2016.

Office of OSHA Voluntary Programs: Current Partnerships

The Office of OSHA Voluntary Programs is working on a Partnership Agreement with Holder Construction Group, and its subcontractors working on the Clemson Douthit Hills Project Site located in Clemson. This Partnership Agreement was signed in November 2015.

OSHA Voluntary Programs is also working on a Partnership Agreement with Metcon Inc., and its subcontractors working on the Horry County School Project in Socastee. This Partnership Agreement is expected to be signed in July 2016.

Office of OSHA Voluntary Programs: Current Youth Safety Outreach Program

To promote a culture of safety and health in the youth of South Carolina, the Office of OSHA Voluntary Programs visited five elementary, middle, and high schools for Career Day. SC OSHA's youth outreach objective is to provide South Carolina high school students with basic safety orientation. This training will help students working at manufacturing facilities and in vocational education pathways, and provide general safety knowledge that will benefit students as well as potential employers. With safety awareness training, students can enter the workforce with safety knowledge that will empower students to assist employers in building a safety culture that will lower the injury and illness rates and in turn, lower worker compensation rates and increase productivity. In addition, this will also assist the schools fulfilling the South Carolina Department of Education requirement for SC OSHA Awareness Training, OSHA 10 and OSHA 30 training requirements as stated in the Career and Technology Education Manufacturing Course Standards for Introduction to Manufacturing, Welding, Mechatronics, Machine Technology, and Electronics.

An Advisory Committee was formed with 11 Voluntary Protection Program (VPP) sites from the Upstate and Low Country in May 2016. A curriculum for General Awareness Training was created for the Youth Safety Awareness Outreach Program. The first official class participation at the Golden Strip Career Center, by VPP sites and Outreach Consultant, was on May 19, 2016. A train the trainer plan using VPP site representatives to assist OSHA Outreach is scheduled to be in place by July 13, 2016 for a meeting at Golden Strip Career Center located in Mauldin.

OFFICE OF ELEVATORS AND AMUSEMENT RIDES

Administrator:

Duane Scott

Created in 1986, the Office administers the South Carolina Elevator Code and the South Carolina Amusement Ride Safety Code. To ensure compliance with both codes, licensed inspectors conducted inspections of new and existing elevator facilities, amusement rides, and bungee jumps in 2014.

Elevator and amusement ride inspections are outsourced to certified special inspectors licensed by LLR. LLR employs a team of auditors who travel the state to randomly review the work done by the special inspectors.

Elevator Safety Inspections

Per Chapter 16 of Title 41 of the South Carolina Code of Laws, 1976 (as amended), the Office of Elevators and Amusement Rides administers regulations governing construction, alteration, and installation of new elevators, escalators, dumbwaiters, handicapped lifts, and moving walks. It also administers safety standards for existing facilities. All safety standards are national consensus standards in accordance with the American National Standards Institute. The office, and the private inspectors it licenses, inspects elevator facilities and issues operating certificates.

Since registration of elevators and related equipment formally began in July 1986, a total of 13,115 elevators and related equipment have been registered. The highest numbers of registered facilities are in Richland, Charleston, Greenville, and Horry counties.

Fees for the inspections performed by the Office of Elevators and Amusement Rides are based on the contract price for new elevators under construction or the number of floors served by existing elevators.

FY 2016 Statistical Information

- Total number of elevators registered in the state: 13115
- Total number of elevators inspected: 10473

Amusement Ride Safety Inspections

Per Chapter 18 of Title 41 of the South Carolina Code of Laws 1976 (as amended), the Office of Elevators and Amusement Rides administers regulations to guard against injuries in the assembly, disassembly, and use of amusement devices at carnivals, fairs and amusement parks. The office, and any special inspector it licenses, inspects amusement devices and issues operating permits. Inspection fees are based on the type of device being inspected and are set by regulation.

FY 2016 Statistical Information

- Total number of amusement rides inspected: 604
- Total number of amusement rides permitted: 501

Bungee Jumping Inspections

The office began regulating the practice of bungee jumping in July 1994. In FY 2015 - 2016, there were no bungee jump inspections.

MANAGEMENT MEDIATION

Per South Carolina Code of Laws, 1976 (as amended) Section 41-17-10, the LLR Director is responsible for assisting in the settlement of management and labor disputes (except railroads and express companies doing business by rail). The Office of Labor-Management Mediation monitors industrial disputes, strikes, lockouts, picketing and its causes, and offers assistance to the parties involved through conflict resolution techniques. When requested by the parties, the office offers Dispute and Grievance Mediation as a third party neutral to assist in resolving any outstanding grievances in their working relationship or negotiating their collective bargaining agreement. In general, the Office of Labor Management Mediation attempts to resolve misunderstandings and differences between organized labor and management prior to a work stoppage resulting in a more productive work environment and less disruption in commerce. In this regard, the office provides the following:

- Dispute Mediation: When the parties are negotiating a new collective bargaining agreement or renewing an existing agreement the office offers mediation if they are unable to reach an agreement prior to a work stoppage, or other economic action.
- Grievance Mediation: When the parties have a collective bargaining agreement in place and a dispute arises that the parties are unable to settle the office offers to mediate the grievance prior to Arbitration or the final step of the grievance procedure. This service allows the parties to reach an agreement with input from both sides rather than having an Arbitrator render a decision. This may result in a settlement that is less expensive and contentious.
- During negotiations, the office monitors the process by keeping in touch with the parties to assess the progress and offer suggestions.
- Promote the development of sound and stable labor management relationships by meeting with the parties prior to the beginning of negotiations to offer services, gather essential information and assess the situation.
- Prevent or minimize work stoppages by assisting management and labor in resolving their disputes amicably between themselves or through Mediation efforts.

This office also administers the South Carolina Right-to-Work Law (as amended) Section 41-7-10, which provides that the rights of employees shall not be denied or abridged based upon their affiliation or non-affiliation with a labor union. This primarily affects employees in the bargaining unit of an employer who has a collective bargaining agreement with a labor organization. In this role, the Mediator will receive the complaint and conduct an investigation. This is usually performed by conducting separate conferences with the complainant and the defendant to gather and assess the facts. We will then consult with the Legal Department if necessary and make a recommendation for settlement or dismissal based on the facts and applicable law.

OFFICE OF IMMIGRANT WORKER COMPLIANCE

Director:

Jim Knight

South Carolina Illegal Immigration Reform Act

Following a U.S Supreme Court decision in May 2011 (Whiting v. US Chamber of Commerce) that brought into question the constitutionality of the 2008 South Carolina immigration law, the Department of LLR suspended enforcement of the Illegal Aliens and Private Employers Act effective May 31, 2011.

In June 2011, the state legislature amended the 2008 law in conformance with the U.S. Supreme Court decision.

Effective January 1, 2012, every private employer of one or more workers must verify new employees through the U.S. Department of Homeland Security's E-Verify work authorization program within three business days of hiring. A private employer may not knowingly or intentionally employ an unauthorized alien. Failure of an employer to comply with the law results in either probation for the employer, suspension of the employer's business licenses, or revocation of the employer's business licenses.

For a first occurrence by a private employer, prior to July 1, 2012, of failure to verify a new hire through the E-Verify federal work authorization program, the penalty was waived where the employer swears or affirms in writing to the South Carolina Department of Labor, Licensing and Regulation that the employer has complied with the provisions of the federal law covering employment of unauthorized aliens (8 U.S.C. Section 1324a) from January 1, 2012 until notification by the Department of LLR of a violation, and upon compliance with the state law on verification of new hires within three business days.

For a first occurrence by a private employer, after July 1, 2012, of failure to verify a new hire through E-Verify, the Department of LLR must place the employer on probation for a period of one year, during which time the private employer must submit quarterly reports to the Agency demonstrating compliance with the law. A subsequent violation within three years of the law's verification requirements must result in the suspension of the private employer's license(s) for at least 10 days, but not more than 30 days.

FY2016 Statistical Information	
Audits conducted	2864
Employers with no new hires since 7/1/12	1393
Employers who E-Verified new hires	1084
Employers who did not E-Verify new hires	387
Percentage of employers in compliance	86%

Office of Investigations and Enforcement (OIE)

Deputy Director:

Dean Grigg

Assistant Deputy Director:

Christa Bell

The Office of Investigations and Enforcement (OIE) has the responsibility to investigate all complaints received within the Division of Professional and Occupational Licensing Boards (POL) to include the Office of Wages and Child Labor; and to enforce Board orders. OIE was created to allow for better utilization, training, and efficiency of the investigative staff.

Division of Professional and Occupational Licensing (POL)

Deputy Director:

Dean Grigg

Assistant Deputy Director, Building & Business Services:

Andrew Rogers

Assistant Deputy Director, Health & Medical Boards:

H. Rion Alvey

Assistant Deputy Director, Office of Investigations & Enforcement: **Christa Bell**

As an administrative unit within the Department of Labor, Licensing and Regulation, the Division of Professional and Occupational Licensing provides services to 40 professional and occupational regulatory boards that are responsible for establishing minimum standards of competence and conduct for more than 400,000 licensees in South Carolina.

The 40 licensing boards protect the health, safety, and wellbeing of the citizens of South Carolina by issuing licenses to qualified individuals and businesses that provide services to consumers. The boards are composed of volunteer members, some of whom are appointed by the Governor, some appointed with advice and consent of the Senate, and some of whom are elected. Board members include licensed practitioners and members of the public. They serve as a direct link between the professionals they license and consumers. Most boards meet on a quarterly basis, and the meetings are open to the public.

Each board evaluates the qualifications of license applicants, grants licenses to those that qualify, and establishes regulations that set ethical and technical competence standards for the professionals it licenses. The boards also take disciplinary action against licensees whose conduct fails to meet the accepted standards of the profession.

The Division also serves as an educational resource to schools and colleges and provides staff to serve as speakers and presenters for professional associations and other meetings.

Board of Accountancy

The Board examines applicants and issues certificates and licenses to certified public accountants, public accountants, and accounting practitioners. The Board may discipline certificate and license holders, prescribe rules and regulations, investigate complaints, and, in general, regulate the practice of accounting in South Carolina.

Boiler Safety Program

The Boiler Safety Program (2005 Act 59) was enacted by the South Carolina General Assembly on May 18, 2005, requiring the S.C. Department of Labor, Licensing and Regulation (LLR) to promulgate regulations for safe installation and inspection of boilers. The legislation establishes certification requirements for boiler inspectors and provides for boiler inspection time frames, criteria and reporting requirements. Beginning June 1, 2006, each boiler used, or proposed to be used in South Carolina, must be registered with LLR and inspected annually or biennially.

Building Codes Council

The Building Codes Council approves modifications to codes submitted for use by municipalities and counties. The Council assures statewide consistency by adopting nationally recognized building codes. The Council also monitors the design, construction and sale of modular buildings offered for sale within South Carolina. In addition, the Council registers building code enforcement officers and administers the state accessibility statute and regulations.

Division of Fire and Life Safety

141 Monticello Trail
Columbia, S.C. 29203
(803) 896-9800

LLR Deputy Director:

Robert O. Polk

The Division of Fire and Life Safety's goal is to make South Carolina safer by providing programs and services to enhance the quality of life for citizens, visitors, and firefighters. The Division consists of the Office of the State Fire Marshal, the S.C. Fire Academy, and the S.C. Emergency Response Task Force.

Chief Robert O. Polk was appointed by S.C. Gov. Nikki R. Haley as the State Fire Marshal effective August 1, 2014. He was also appointed by the Governor to serve on the State Emergency Response Commission. By S.C. Code of Laws, the State Fire Marshal also serves as the following: ex-officio member on the S.C. Manufactured Housing Board, chairman of the Firefighters Mobilization Oversight Committee, consultant to the Board of Pyrotechnic Safety, and staff support to the Liquefied Petroleum Gas Board.

The Office of State Fire Marshal is comprised of Community Risk Reduction, Inspection Services, Engineering Services, Licensing and Permitting, and Emergency Medical Services Training.

The S.C. Fire Academy, per S.C. Code of Laws (23-10-10), is operated for the express purpose of educating and training the state's paid, volunteer, and industrial fire service personnel. The Fire Academy also provides leadership, guidance, and services to help the fire service carry out its responsibilities at the local level.

The role of the S.C. Emergency Response Task Force (SCERTF) is to assist local, regional, and state governments in times of need. The Task Force assists by providing subject matter experts, guidance, and on-scene professional resources during disasters or emergencies that overwhelm local resources. The Task Force provides responses to all phases of firefighting, structural collapse, helicopter rescue, water rescue, and hazardous materials incidents. This response can range from sending two specific field experts to providing hundreds of firefighters to assist in a large-scale disaster. In addition, the SCERTF supports LLR's role in emergency support functions within the State Emergency Response Plans and day-to-day operations.

OFFICE OF STATE FIRE MARSHAL

State Fire Marshal:

Robert O. Polk

The Office of State Fire Marshal, per S.C. Code of Laws (23-9-10) has regulatory responsibility to ensure compliance with state fire safety regulations. This is accomplished through inspection activities by deputy state fire marshals in the field, code consultation, and plans review services provided by the Engineering Services section.

Firefighter Registration: S.C. State Fire, per S.C. Code of Laws (40-80-10), is also responsible for the registration of South Carolina firefighters. By law, firefighters employed on or after July 1, 2001, must register and complete a name-based criminal records check. In FY 2016, the Office requested and processed 2,959 State Law Enforcement Division background checks. In comparison, 2,605 background checks were performed in FY 2015.

FIRE PORTAL

Fire Portal: In order to provide fire department personnel with a streamlined registration system, a user-friendly online database known as the "Fire Portal" currently reports 545 fire departments with nearly 17,800 firefighters. This "one stop shop" allows fire chiefs (and assigned administrators) to electronically submit SLED background checks, file mandatory

reports (quarterly inspections and annual fire equipment certificate), update rosters, and revise Firefighter Mobilization records. The Fire Portal is also a tool for fire department training officers as they are able to approve/register firefighters for classes, run selected performance reports, and view a complete training schedule. Once an email is provided for login access, an individual firefighter is able to view available courses, sign up for a class, and view a current Academy transcript.

Fire Portal Usage		
Year	Individual Users	Number of Fire Departments
2016	7500	470
2015	5100	469

Reporting Local Inspections: Quarterly inspections are conducted by local fire departments and the total numbers are reported via the online Fire Portal. These reports, per S.C. Code of Laws (23-9-310), are due Dec. 31 (of previous year), March 31, June 30, and September 30 of current year. During the 2016 reporting period, the total number of occupancies inspected was 118,428.

Annual Fire Equipment Report Statistics: Per S.C. Code of Laws (23-9-310), in order to receive One Percent funding, a qualified fire department must submit an annual fire equipment certificate. This information is submitted via the online Fire Portal and has four separate categories: Fire department information (address, population coverage, water source, etc), S.C. Firefighters’ Association membership verification and other data (fund balance), Firefighter information (updated roster), and apparatus information.

In FY 2016, \$700 million (estimated) in equipment was reported:

Equipment Type	Total Number	Total Estimated Value
Aerial/Ladder/Platform	242	\$126,904,235.62
Ambulance	83	\$9,565,743.00
ATV/UTV	73	\$800,420.00
Boat	90	\$3,899,307.45
Brush Truck	545	\$18,973,967.86
Breathing Air Truck	48	\$5,286,606.00
Engine (Structural)	1794	\$387,274,382.30
Rescue	339	\$48,404,430.44
Staff Vehicle 4WD	318	\$8,997,129.39
Crew Transport	49	\$983,939.00
Tanker/Tender	585	\$71,209,768.61
Rehab Truck	32	\$1,521,505.00
Mobile Command/Communications Post	51	\$2,156,196.00
Other	301	\$14,036,366.29
TOTAL:		\$700,013,996.96

One Percent Fund: This fund, which is commonly referred to as “one-percent money,” is a one-percent tax collected on fire insurance premiums written in the state. To obtain these funds, fire departments must submit quarterly inspection reports and annual fire equipment certificates to this Office. In 1907, the S.C. General Assembly passed the Firemen’s Insurance and Inspection Fund Act (see S.C. Code of Laws 23-9-310) for “the betterment and maintenance of skilled and efficient fire departments within the county.” After reports are received and verified, the qualifying information is provided to applicable county treasurers. The money is then distributed by each county treasurer to qualified fire departments based on the percentage of the total assessed value of the county that constitutes the fire department’s response or coverage area. By law, fire departments must spend one-percent money in one of three categories: retirement and insurance, training and education, or recruitment and retention.

Social Media: Using our “SC State Fire” Twitter account the Division provides informative updates to interested followers. The account currently has more than 900 followers (an increase of almost 300 followers since its FY 2015 inception) with the majority being fire departments, chiefs, firefighters, media outlets, and other state agencies. The Twitter account also allows the Division to follow almost 200 Twitter accounts consisting of South Carolina fire departments, state, and federal agencies as well as media outlets. During the eight week recruit school, training photographs and videos (GIFs) are showcased using the Twitter account.

SC State Fire
 @SCStateFire
 Official Twitter account of South Carolina Division of Fire and Life Safety - home of the Fire Marshal's Office, State Fire Academy, and SC-TF1. #fireportal
 Columbia, SC
 scfiremarshal.llrllnline.com

Volunteer Incentive Program (VIP): Additionally, per S.C. Code of Laws (23-9-190), this Office compiles Volunteer Incentive Program (VIP) certification team reports for “Qualified Rescue Squads” and “HAZMAT Teams” and submits them to the S.C. Department of Revenue. In FY 2016, the OSFM reported the following (2014 and 2015 provided for comparison) number of members:

Year	Qualified Rescue Squad members	HAZMAT Team members
2016	559	85
2015	687	93
2014	799	111

Division Logo: To boost recognition and present a fresh image, a new logo was designed in-house and approved by the Governor’s office in FY 2015. The five-pointed gold star enclosed in a red circle has been in use since May 1, 2015, and replaces the original solid gold star.

State Agency Partnerships: To provide assistance, the Division also partners with several other state agencies. These include:

- Department of Administration – Inspection of existing state buildings
- Department of Commerce – Consultation with new business enterprises
- Department of Corrections - Assistance to inspect prisons/detention centers; provides inmate labor Department of Disabilities and Special Needs- Plan reviews and inspection of licensed facilities
- Department of Education’s Office of School Facilities – Provide inspections for new construction and public school renovations
- State Engineer’s Office – Sprinkler plan reviews
- EdVenture Museum - Provide personnel and program support
- Emergency Management Division – Assist with development of State Emergency Operation Plan
- Department of Health and Environmental Control – Collaborate with HazMat mitigation and a pediatric disaster management project.
- Department of Social Services - Inspection of foster homes

Community Risk Reduction

Section Chief: **Tim Wojcik**

The Office of State Fire Marshal is responsible for programs designed to educate and enhance public awareness of fire safety and community risk reduction efforts. The Community Risk Reduction (CRR) team manages the Fire Marshal’s initiatives surrounding community risk reduction and data management. This section also continues to coordinate the Community Loss Education and Response (CLEAR) Team.

Major program areas include:

- Public Fire and Life Safety Education Delivery
- Data Collection and Management
- Fire Incident Research and Investigation
- Major Incident Support
- Smoke Alarm Installation
- Quarterly Public Fire and Life Safety Educator Training

To provide fire and life safety programs for school and family audiences, the Division and EdVenture Children's Museum continue its partnership. This arrangement allows LLR to provide personnel and program support for Dalmatian Station and Home Safe Home (a fire safety exhibit) within EdVenture. State Fire staff members are responsible for program development, delivery, and outreach activities. In FY 2016, risk reduction messages were shared with 2,623 adults and 7,048 children during direct delivery of Community Risk Reduction programs.

For example, “Little Sparks” is an interactive program designed for children up to seven years old and teaches how to recognize and respond to the most common causes of residential fires. Another program, “Burning Questions” teaches children eight years old and older the chemistry of fire. The program uses six scientific experiments to demonstrate the properties of fire.

CLEAR Team

Every fatal fire in South Carolina is researched by a State Fire CLEAR staff member. The CLEAR team is comprised of several duty chiefs (weekly rotation), as well as a statistical research analyst, community risk reduction curriculum specialist, fire researcher, and the State Fire Marshal. Afterwards, to develop programs to better address South Carolina’s fire fatality problem, aggregate information is shared quarterly with the team and other stakeholders.

Fire and Life Safety Educator’s Quarterly Training

To provide ongoing, high-quality training to community risk reduction and fire and life safety educators, CRR conducts Fire and Life Safety Educator’s Quarterly training sessions. These six-hour sessions are interactive and often include subject matter experts from other disciplines. Each session provides attendees with continuing education credits that meet the job performance requirements of NFPA 1035 that, in turn, assists their fire department with earning maximum ISO scale credit in the CRR category. In FY 2016, CRR trained 103 quarterly attendees.

In FY 2016, the Community Risk Reduction Working Group continued to meet with the goal of advising and collaborating with the Office of State Fire Marshal in regard to Community Risk Reduction efforts and campaigns. Members of the working group include representatives from the S.C. Firefighters’ Association, the S.C. EMS PIER Team, S.C. FALSE, S.C. Fire Marshals’ Association, American Red Cross, S.C. Office on Aging, S.C. Office of Rural Health, Palmetto State Teachers’ Association, EdVenture Children’s Museum, and S.C. Safe Kids.

Fire Fatalities

State law requires the Fire Marshal’s Office to collect and analyze data on fire fatalities. In FY 2016 (chart below), there was a decrease in the number of fire deaths (67) compared to the previous year (93). The average age was 55 years and the majority of the fire victims (67 percent) were older than 50. Additionally, October 2015 was the deadliest fire fatality month with 13 victims, compared to two fire fatalities in September 2015.

South Carolina Fire Fatalities		
	FY 2016	FY 2015
Number of Fire Fatalities	67	93
Average Age	55 years	52 years
Percent older than 50 years	67 percent (45 victims)	60 percent (56 victims)
Percent between 20-50 years	21 percent (14 victims)	27 percent (25 victims)
Percent younger than 20	12 percent (8 victims)	12 percent (11 victims)
Percent Male	60 percent	66 percent
Number of Fatal Fire Incidents	60	76
Number of Multiple Fire Fatalities	7 incidents	15 incidents
Highest Fire Fatalities by Month	October 2015 (13 victims)	December 2014 (18 victims)
Lowest Fire Fatalities by Month	September 2015 (2 victims)	September 2014 (1 victim)
Number of Residential Fires	55 residential fire fatalities	78 residential fire fatalities

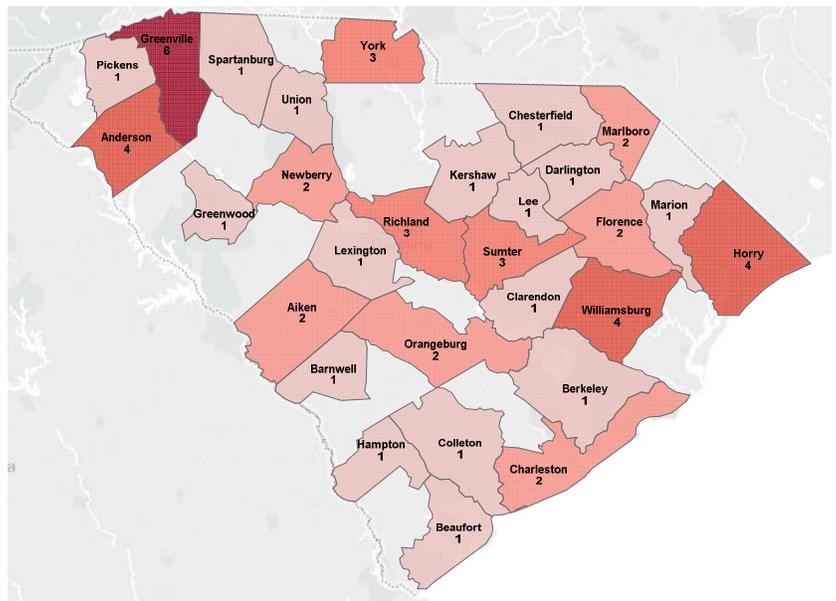

Data collection is accomplished through the National Fire Incident Reporting System (NFIRS) and used by South Carolina fire departments. After a fire department responds to an incident, a statistical report is completed. These statistics are analyzed by county, cause, presence of a smoke alarm, age of fire death victim, and type of structure. This statistical information represents information provided by more than 400 participating fire departments through the Fire Incident Reporting System.

The map reflects FY 2016 fire fatalities by county. Greenville County had the highest total of fire fatalities at six. Additionally, 29 counties had at least one fire fatality.

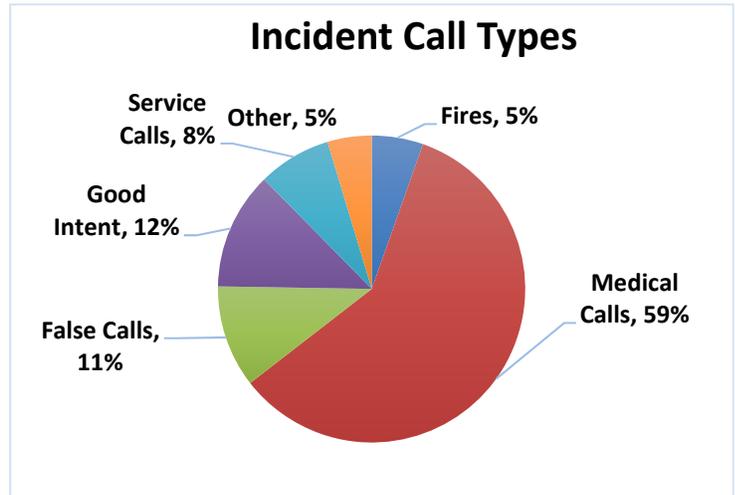

Although not reflected on the map, 29 fire fatalities occurred in homes with no smoke alarm present. CRR records indicate 27 citizens died while attempting an escape, and another seven while sleeping. As a result, our Division has continued two safety campaigns - “Get Out and Stay Out” as well as “Shut the Door.”

There were 279,488 incidents reported accounting for a property loss of more than \$130 million. The Division’s CLEAR Team responded and assisted fire departments with many of these fire fatalities and large loss fires.

Data management programs continue to expand beyond simple maintenance of National Fire Incident Reporting Systems. Data management is also involved in fire service related research. CRR has the ability to assist fire departments with data analysis, GIS mapping, and quality control. In FY 2016, CRR impacted 261 fire departments, through training, answering questions and analysis requests, and helping build NFIRS programs in local departments where there previously were none. A standard operating guideline was implemented to provide local departments a baseline of how, when, and what to report to the State NFIRS Program.

This chart reflects a percentage of total incidents by call type. For example, EMS (medical) incidents are almost 60 percent of calls and 11 percent are false alarms. Five percent of incidents were fires, which caused more than \$120 million in damages of property and contents. Of that amount, nearly \$2.5 million is attributed to intentionally ignited fires.

Significant fires with property loss estimates greater than \$1 million have an impact on communities and local economies. The chart below reflects the significant FY 2016 fires listed by the date of the incident, city, property type, and dollar loss.

Date	City	Property Type	Dollar Loss in Millions
July 19, 2015	Port Royal	Restaurant or cafeteria	1.5
July 20, 2015	Aiken	Multi-family dwellings	1.3
July 29, 2015	Greenville	Manufacturing, processing	2
October 16, 2015	Columbia	Open land or field	1
December 13, 2015	North Charleston	Manufacturing, processing	2
March 9, 2016	Green Pond	1 or 2 family dwelling	1.6
April 9, 2016	Mt. Pleasant	1 or 2 family dwelling	1.3
May 11, 2016	Cayce	1 or 2 family dwelling	1
June 16, 2016	Pawleys Island	Multi-family dwellings	1

Fire Prevention Grants and Partnerships

In order to improve lifesaving educational initiatives across South Carolina, the Community Risk Reduction Team has spearheaded multiple partnerships. Additionally, multiple grant opportunities have made it possible to improve the impact of the following lifesaving efforts:

- The **Autism Spectrum Disorder (ASD) Emergency Planning Research Project** is a collaborative effort between the State Fire Marshal’s office and the University of South Carolina, College of Nursing. This research project challenges the literacy levels and validity of current ASD fire and life safety messaging. It has a strong focus on providing recommendations for improvements to these messages which will be utilized across the United States to provide ASD caregivers the right tools to protect the ASD individual from fire injury or death. The initial findings are expected to be released in late 2016.
- The **Carbon Monoxide Awareness Training** project is an educational partnership between the Jeffrey Lee Williams Foundation, the Batesburg-Leesville Fire Department, and the Division of Fire and Life Safety. This partnership will produce two online educational modules. Module one is designed for the public to learn about and mitigate the dangers of carbon monoxide in their homes. Module two is designed for first responders to learn about detecting and mitigating carbon monoxide incidents, as well as recognizing the signs and symptoms of carbon monoxide exposure during medical calls for service. Both modules are expected to be released in FY 2017.
- The State Fire Marshal’s office is a partner with the **Home Fire Preparedness Campaign** - an American Red Cross program. One of the major goals is to install 50,000 smoke alarms in homes across South Carolina from 2015-2017. During FY 2016, the program installed more than 20,000 smoke alarms in S.C. homes. The State Fire Marshal’s office continues to provide technical expertise in the area of education and logistics.
- Several entities including the State Fire Marshal’s office, S.C. Association of Fire Chiefs’, Vision 20/20, and multiple local fire departments have partnered to bring the **Home Fire Safety Patrol – Sound Off** program to this state. The program provides educationally viable fire and life safety messages, and smoke alarm installations, to second and third graders living in the areas where the highest risk of injury or death from fire exists. The program also utilizes local firefighters and teachers to provide this education. To assure the fire and life safety messages are effectively delivered, pre and post-testing will take place. The program is expected to begin in FY 2017.

- The Office of State Fire Marshal, the S.C. State Association of Fire Chiefs', and multiple local fire departments through the Michigan Public Health Institute from DHS/FEMA's Grant Program Directorate and the Assistance to Firefighters Grant Program – Fire Prevention and Safety Grants will partner to deliver the **1,000 Smoke Alarm Program** to the highest risk areas in S.C. where injury or death from fire is most likely. In addition, the program will provide assistance to participating fire departments in the development of a "Home Fire Inspection Survey" that will place firefighters in the homes they protect to educate residents about reducing the risk and impact of fires. Additionally, participating departments will receive education for their staff in the area of current public risk reducing fire messaging and smoke alarm technology. The program is grant funded by Vision 20/20 and is expected to be completed by August 2017.

Community Risk Reduction Research Projects

The Community Risk Reduction section recognizes the importance of evidence-based decision making, resulting in a better focus of effort and resources to where the highest-risk communities are located. With the help of data collected by local fire departments, South Carolina can be at the forefront of fire science and research within the next few years.

A large-scale project is being developed to identify the causes of elderly fire fatalities and will begin in FY 2017. With this project, select local departments will complete a questionnaire to determine several human factors and code issues that may have prevented the survivability of a single-family dwelling fire. As victims over the age of 50 consistently represent two-thirds of fire fatalities in S.C., this research project will identify where to target our message to reduce the number of fatalities in home fires.

As more research projects are being implemented, local fire departments are eager to work more closely with and align themselves in mission with the State Fire Marshal. More fire departments are taking a preventative approach, which starts with ample data collection, partnerships with neighboring districts and agencies, and educating communities to keep them fire safe.

Code Enforcement & Fire Marshal Training

Section Chief: Shawn Stickle

This section performs fire and life safety inspections for state buildings, public schools, fire equipment dealers, outdoor and indoor firework displays, Liquefied Petroleum gas, explosive magazines, contractual obligations, and local requests for assistance. It also provides fire marshal training and certification to employees of local and state governments who perform fire inspection duties certified in accordance with S.C. Code of Laws 23-9-30.

Fire and Life Safety Inspection Statistical Information					
Inspection Statistic	FY 2012	FY 2013	FY 2014	FY 2015	FY 2016
Inspections Per Deputy SFM (average)	970	947	840	873	855
Inspections Completed by Deputy SFMs	14,549	11,361	10,923	11,355	11,118
Total Violations Cited	7,804	4,284	5,265	7,875	8,521

The Code Enforcement Section focuses on conducting fire and life safety inspections throughout the state in various occupancies and conducting specialized inspections related to facilities obtaining state licenses or permits from the Office of State Fire Marshal and other state agencies.

FY 2016 Total Inspections per County (Top Five)	
County	No. of Inspections
Richland	1,281
Greenville	1,094
Spartanburg	653
Charleston	622
Lexington	574

During FY 2016, there were 35 fire marshal-related courses delivered to 1,439 students, composed of design professionals and building officials. These courses are delivered at the Academy, and regionally throughout the state, and provide required continuing education hours and a mechanism to improve statewide consistency of code interpretation and enforcement. There were more than 650 active certified fire marshals performing inspections in their local jurisdictions.

FY 2016 Fire Marshal Training and Certification			
Fire Marshal Training and Certification	FY 2014	FY 2015	FY 2016
ICC Fire Marshal Training Attendees	75	76	44
NFA Fire Inspection Principles (80 hours) Attendees	N/A	N/A	16
Fire Marshal Quarterly Training Courses	24	33	32
Quarterly Fire Marshal Training Attendees	1,194	1,375	1,347
Number of Certified Fire Marshals	620	655	666

FY 2016 Statistical Staff-Related Information	
Staff Positions	Number of Personnel (15)
Chief Deputy State Fire Marshal	1
Senior Deputy State Fire Marshals	3
Senior Deputy State Fire Marshal of Training	1
Deputy State Fire Marshals	10

Engineering Services

Section Chief: David Blackwell, P.E.

The Engineering Services Section provides technical assistance and consultation services to design professionals, state officials, local building and fire officials, contractors, builders, building owners, and the public. Staff is responsible for plan reviews of: buildings, fire sprinkler systems, fire alarm systems, aboveground storage tank (AST) motor vehicle fuel storage and dispensing systems at retail service stations, liquefied petroleum gas (LP Gas) storage tank installations, and other reviews, as necessary, to assist design professionals, other state Authorities Having Jurisdiction (AHJs), local AHJs, and resident fire marshals (see S.C. Code of Regulations, Chapter 71, Article 8). Staff also assists other Agency divisions with special projects, research, and development of future regulations and state statutes.

FY 2016 Staff Related Information	
Staff Positions:	Number of Personnel (6)
Chief Engineer	1
Engineer	1
Engineering Associates	3
Administrative Assistant	1

FY 2010 – FY 2016 Statistical Information							
TYPE OF PLAN REVIEW	Fiscal Year/Number of Plan Review Projects*						
	FY10	FY11	FY12	FY13	FY14	FY15	FY16
Building fire & life safety	14	12	6	6	6	7	10
Fire alarm system	2	6	5	4	1	1	0
AST fuel storage and dispensing systems	0	1	3	3	0	1	1
Alternate extinguishing system	0	0	4	2	0	0	0
LP-gas system	5	30	35	12	11	9	7
Fire protection sprinkler system – aboveground	492	574	641	646	602	648	699
Fire protection sprinkler system – underground	128	121	144	172	149	128	258
Hydrogen facility	0	2	0	0	3	1	3
Total number of plan review projects	641	746	838	845	772	795	978

It should be noted that FY 2016 closed with the engineering section having received 183 more projects than FY 2015 (23 percent more than the amount received and processed in FY 2015). While the workload has steadily increased since 2010, the number of staff positions conducting plan reviews has not; therefore, new equipment, process refinements, and other methods have been used to compensate for the increased workload.

Developments, Activities, and Select Accomplishments:

In FY 2016, new equipment was acquired to improve processing of plans. These include high definition TV screens, to display electronic plans at the scale they were intended to be viewed, and more powerful desktop computers to improve capabilities of staff to conduct plan reviews faster and more accurately and provide better customer service.

The chief engineer continues to serve on the S.C. Building Codes Council. He also works with various LLR and OSFM staff to draft revised State Fire Marshal's Rules and Regulations which were submitted to the legislature and became effective in FY 2016. Among the many improvements in the revised regulations are refinements to foster homes requirements to improve upon the changes made in FY 2015. Changes are designed to provide appropriate fire safety requirements, with certain options, to facilitate compliance and assist the South Carolina Department of Social Services in its goals to reduce obstacles to child placements.

Staff continues to participate in a State Design Professionals Group and relate and discuss matters of common interest to State employees in the design and construction industry, including legislation, laws, regulations, codes, standards, and interpretations. The chief engineer also works with the Board of Registration for Professional Engineers and Land Surveyors to clarify the practice of engineering with regards to fire protection systems; to clarify the application of building codes and their requirements; and, to advise the Board on planned revisions to their regulations.

The chief engineer, along with select staff:

- Participates in the Building Codes Council and International Code Council code development processes.
- Continues to assist the State Department of Education on various matters related to fire and life safety in public schools.
- Continues to grow and develop in their positions benefitting from multiple formal training and educational opportunities.

Staff continues to participate in select Board meetings and, when appropriate, provide Boards with relevant information and address matters of concern.

Lastly, to improve plan review services, staff continues to identify and investigate multiple technology, process, and policy solutions. Some of these technological solutions are planned to be purchased, researched, developed, and/or implemented in FY 2017 to improve: the electronic storage and communication of plan review documentation and results; data collection, analysis, and reporting; and instructional/educational services for customers.

Licensing and Permitting

Section Chief: Ray Hoshall

The Licensing and Permitting (L&P) Section is tasked with the licensing and permitting responsibilities statewide for liquid petroleum (LP) gas installers, resellers, and cylinder exchange facility dealers; LP gas employees; public fireworks displays; proximate audience fireworks displays; individual pyrotechnic operators and trainees; the storage, use, sale, and manufacturing of explosives; individual blaster employees; and fire equipment dealers and employees. It also evaluates cigarette manufacturers' certifications, issues approvals, and performs random testing and compliance inspections.

In April 2016, the L&P Section transferred the administration and support function for the S.C. Board of Pyrotechnic Safety to the LLR POL Section, and in September 2016 (anticipated), the administrative and support function for the S.C. Liquefied Petroleum Gas Board will also be transferred to POL. These transfers were made after taking into consideration these functions are POL Board related and are more appropriately managed by that Section. Permitting inspections for these two POL Boards continue to be conducted by the OSFM.

Administrator:	Ray Hoshall Ray.Hoshall@llr.sc.gov

The L&P Section verifies each blaster is certified to engage in the sale, use, or storage of explosives. Additionally, blasting permits are obtained before anyone is authorized to perform any blasting or to use any explosives for demolishing a structure, blasting out rock, earth or any other substance or material. Permits are issued for permanent and mobile explosive magazines. Licenses for the sale of explosives are also issued.

Explosives Control Act / Blasters

Blasters Licensed (individuals performing blasting operations)	139
Blasting Permits Issued (specific location permits to blast)	180
Explosive Magazine Permits Issued (storage of explosive materials)	313
Explosive Dealers (sellers of explosive materials)	6
Explosive Magazine Inspections Conducted	62

The L&P Section verifies firms and personnel in the portable fire extinguishers and fixed engineered and pre-engineered fire protection systems business are properly trained. For example, since water spreads most commercial kitchen fires instead of extinguishing them, wet chemical systems are used to provide protection against hot grease and prevent fire from spreading. These wet chemical systems must be properly installed by a licensed company and permitted employee.

Explosions, flashes, smoke, flames, fireworks, and other pyrotechnic-driven effects are often used in the entertainment industry (i.e. concerts, football games, theatrical performances). The L&P Section is tasked with promoting safety of the public and the environment by the effective regulation of this profession to include on-site inspections.

Additionally, certain times of the year (New Year’s Eve and July 4) are traditionally celebrated by using fireworks, which may be sold and used in South Carolina. This Section is tasked with inspecting temporary (90-day) or annual firework stands/stores, as requested by the Board of Pyrotechnic Safety. Prior to opening, these stands/stores must be inspected by a deputy state fire marshal.

NOTE: In April 2016, the Licensing and Permitting (L&P) Section transferred the administration and support function for the S.C. Board of Pyrotechnic Safety to the LLR POL Section.

EMERGENCY MEDICAL SERVICES TRAINING

Section Chief: Justin McConnell

The EMS Training Section was created in FY 2015, reporting directly to the State Fire Marshal. In FY 2016, supervision was transferred to the newly created State Fire Executive Officer position. According to the S.C. Department of Health and Environmental Control (DHEC), an increasing number of credentialed pre-hospital providers (EMT-B, EMT-I/A and EMT-P) are associated primarily with a fire department. In FY 2016, a full-time education coordinator was hired and work began on innovative training programs such as a hybrid online/classroom Emergency Medical Responder course and an “inverted classroom” EMT Basic program.

The EMS Section coordinates CPR and First Aid classes for the Academy recruit program and, in FY 2017, will offer several catalog courses. In FY16, 170 students were trained in CPR, First Aid, or Blood Borne Pathogens. The section is also involved in multiple EMS related committees in the state. These include “EMS for Children” assisting DHEC with a project focusing on pediatric disaster management.

The EMS Programs Working Group continues to advise and support the development of EMS training programs. It has representation from the South Carolina Firefighters’ Association, EMS Association, EMS Educators Association, Private Ambulance Providers Association, and the Carolinas Hospital System.

STATE FIRE ACADEMY

**141 Monticello Trail
Columbia, South Carolina 29203
(803) 896-9850**

Superintendent:

Ken Kerber, Assistant State Fire Marshal

The Fire Academy’s mission, per S.C. Code of Laws 23-10-10, is to provide statewide training for South Carolina fire service personnel: paid, volunteer, airport crash rescue firefighters, industrial fire brigade, and other emergency response personnel. Through more than 200 different courses, and the ability to customize programs, the South Carolina Fire Academy provides basic and advanced training for firefighters, fire officers, instructors, and fire department support functions, which include public fire education, fire prevention, inspections, and fire investigations.

The Academy offers training to in-state firefighters, out-of-state firefighters, non-member “Open Enrollment” students, Boy Scouts of America “Explorer, Learning for Life,” and Junior Firefighter programs for students 16 and 17-years-old. The Academy also provides training to local EMS, police, emergency management, and rescue squad personnel.

Academy training is based upon the National Fire Protection Association (NFPA) standards and S.C. OSHA regulations. The Academy also focuses its programs on the Fallen Firefighters Foundation’s 16 Life Safety initiatives and its “Everyone Goes Home” program. The “Everyone Goes Home” program focuses on firefighter safety and reducing the number of line-of-duty deaths and injuries.

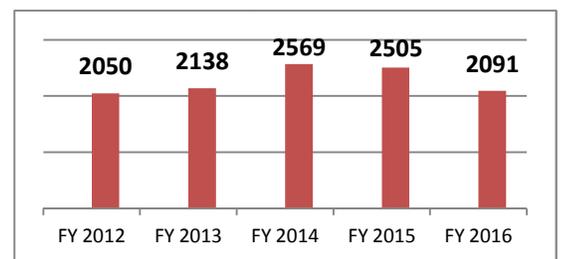

The South Carolina Fire Academy is accredited by the *International Fire Service Accreditation Congress (IFSAC)* in 18 fire service occupational levels, and by the *National Board on Fire Service Professional Qualifications (Pro Board)* in 16 levels Fire Service Professional Qualifications.

Accreditation to these professional levels reinforces the diligence of Academy staff, training programs, and testing process that represents the learning and mastery of each successfully completed student in any of the program levels. Accreditation ensures uniformity of statewide fire education, and also allows students trained and tested at the Academy more mobility to/from other accredited states.

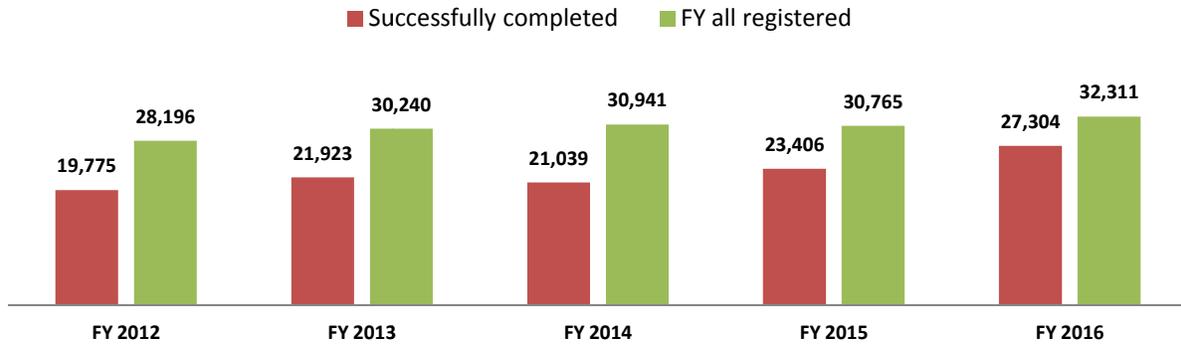

Throughout the year, the Academy provides a minimum of four on-site firefighter recruit programs. The number of programs conducted are based on department and student demand. The eight-week program requires each recruit to reside at the Academy by lodging in an on-site fire station and adhere to a strict instruction schedule. If successful, each recruit achieves nine Academy certificates, including National Accredited Firefighter I and II.

South Carolina has 545 fire departments with nearly 17,800 firefighters. In FY 2016, across the state, the Academy operated and provided 340 days of training. The Columbia site was open 302 days during this same time period (compared to the state employee work year of 247 days). The charts listed below reflect a five year perspective of the total number of training programs (courses) provided and students attending and completing the courses.

For FY 2016, the Academy provided 2,091 training programs for 32,311 students registered, and 27,304 successfully completed students. The following table represents a five year perspective for the total number of registered and completed students during FY 2016.

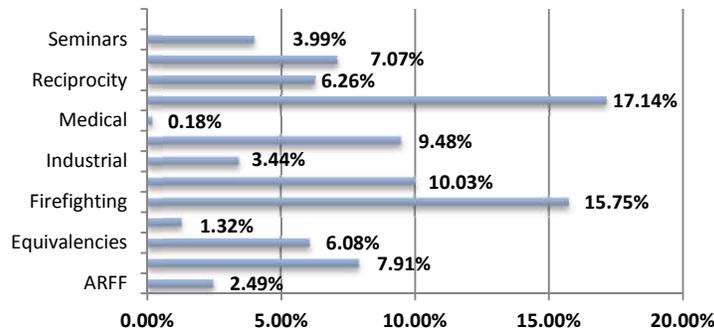

Total Number of SCFA Registered and Completed Students

To meet the needs of those unable to commit to a traditional classroom environment, and to provide an alternative training environment, the Academy provided more than 11,000 students (completed) online independent learning, hybrid, and blended learning programs. The “online classroom” is designed to provide knowledge to the students who take these programs. However, open enrollment “seminar” online program numbers are not captured as “completed students.” As such, please note many of these students are not counted in the above chart.

This chart reflects the percentage of types of training courses provided to the state’s fire service members. For example, in FY 2016, “Officer” related training totaled 17.14 percent and “Firefighting” was 15.75 percent of classes requested.

FY 2016 Course Distribution

The South Carolina Fire Academy is comprised of the following areas of operations and support:

Regional Training

Program Administrator: Phillip Russell

Regional training is the key to the delivery of Academy courses to fire service customers. A majority of courses are conducted in the regions at local fire departments. Five regional offices are located throughout the state and staff work continuously to promote and provide training programs and services to fire service customers. In FY 2016, staff attended 624 fire department meetings.

Number and Types of Employees	
Full-Time	Part-Time
8	187 Instructors

Additionally, these offices:

- Trained 15,127 successful students in 1,315 provided programs.
- Continue to market programs to reduce the number of canceled programs through marketing, communication, and the addition of in-house instructors to meet fire customer needs.
- Provided an average of 130 retests per month to Academy students.
- Continue to work in support of online, alternative delivery programs and high school programs to increase student occupancy and customer support.
- Continue to add to the number of instructor accelerated training programs to benefit in-house instruction capabilities at the local level.
- Created, using the instructor recertification process, an updated true list of current instructors with accurate contact information.
- Provided 55 instructors recertification programs.
- Implemented a process to identify SCFA instructor needs and oversight of temporary instructors.

Resident Training

Program Supervisor: Lenny Busby

Resident training is responsible for training activity on the Academy's main campus, as well as industrial marketing, industrial programs, technical level hazardous material and rescue programs, and aircraft rescue firefighting (ARFF) courses. This year, resident staff provided 451 programs for 8,264 successfully completed students.

Number and Types of Employees	
Full-Time	Part-Time
6	2

Specifically, in FY 2016, the Academy:

- Conducted its 33rd annual Southeastern Fire School with 10 classes for 207 students, 175 explorer competition students, supported by 17 vendors.
- Hosted its second annual HAZMAT weekend training event with 13 courses conducted for 94 students.
- Continued support and worked closely with the state industry emergency brigade working group, and toured many industrial facilities.
- Attended the ARFF Working Group Conference (Atlanta, Georgia) increasing the number of ARFF students.
- Purchased 35 new sets of firefighting protective clothing for student use.
- Upgraded one breathing air compressor and two utility tractors for better training operations and customer service.
- Assisted the S.C. Firefighters' Association by providing audio-visual equipment and set up training programs for the Fire Service Improvement conference and the annual Myrtle Beach conference.
- Supported field programs delivering support trailers and equipment 327 times across the state totaling 59,158 truck miles.

Instructional Design

Interim Program Supervisor: **Bonita Watters**

Instructional Design develops curriculum, audio-visual materials, and online training required for statewide delivery.

In FY 2016, this Section:

- Implemented new or updated curriculum packages to include 3309 Intro to Technical Rescuer, 3310 Technical Rescuer, 2100 Fire Officer I, 2102 Fire Officer II, all four of the Driver Operator series courses, 9121 Interior Structural Fire Brigade, 9181 Flammable Liquid and Gas, Fire Brigade, 2189 Command and Control of Wildland Urban Interface Fire Operations for the Structural Chief Officer.
- Partnered with National Fire Academy to release national training programs to include updated Incident Safety Officer, ICS 330 and 400, Shaping the Future.
- Created a Curriculum Resource Center for instructors to download up-to-date curriculum materials.
- Provided more than 11,000 students (see chart below) with open, hybrid, or blended-learning training on the online format.

Number and Types of Employees	
Full-Time	Part-Time
4	7

Online Training				
Month	Open	Hybrid	Blended	Total
July 2015	222	67	54	343

<i>(Haz-Mat Awareness, Hybrid, and Blended courses are reflected in training courses and student totals.)</i>				

Accreditation, Testing, and Certification

Interim Program Supervisor: **Bonita Watters**

Accreditation and Testing is responsible for managing the Fire Academy's IFSAC (International Fire Service and Accreditation Congress) and Pro Board (National Board on Fire Service Professional Qualifications) Certification and Accreditation programs for the 18 areas of curriculum offered for national certification. This Section also manages the Equivalency and Reciprocity Review Program. In FY 2016, there was a 79.94 percent passing rate on IFSAC exams, an increase of .05 percent from the previous year.

Number and Types of Employees	
Full-Time	Part-Time
1	2

This Section also:

- Issued 2,514 IFSAC seals (in FY16 stopped issuing new seals for reciprocity).
- Awarded 164 students with 838 levels of reciprocity and 546 students with 1603 levels of equivalencies (accreditation took over ICS 100 and 200 equivalencies and added rescue courses).
- Reaccredited 1021 Fire Officer I and II and the 1002 the Driver Operator series (IFSAC and ProBoard).
- Added the ability for regions to grade certification tests and upload results with scanners.
- Managed the Dept. Homeland Security/FEMA State Training grant.
- Managed the FEMA National Fire Academy Command Grant which provided \$20,000 for 70 NFA Officer level programs for 902 students.

Administration

Program Administrator: Phillip Russell

Program Supervisor: Sherri Bush

Administration performs Resident and Regional registrations, course confirmations, resident course billing, dorm and meal coordination, transcript updates, and issues a certificate for each student completing a Fire Academy course (except IFSAC / Pro Board certifications).

Number and Types of Employees	
Full-Time	Part-Time
3	0

In FY 2016, this Section:

- Processed 1,335 course packages for classes and testing.
- Registered, created, and mailed 19,779 certificates (successfully completed students).
- Billed for 28,307 registered students.
- Maintained a schedule of resident activity, including 8,264 students, 21,192 meals, and 4,141 student dorms for on-site delivered programs.
- Provided site reservation and support for meetings and seminars for non-fire site use.

Facilities Maintenance

Administrator: Ray Reckelhoff

The facilities maintenance team provides maintenance and janitorial services for the 208-acre site, all buildings, systems, props, support equipment, trailers, and vehicles.

Number and Types of Employees	
Full-Time	Part-Time
3	1

In FY 2016, this Section:

- Upgraded campus security.
- Completed structural stability, door removal, and window installations projects.
- Repaired and replaced HVAC units on-site, as planned and needed.
- Fabricated and installed new facility entrance gates.
- Planned for the evaluation of the sewer and liquid petroleum gas systems.
- Maintained and upgraded Division fleet, props, and training equipment.
- Improved site grounds, concrete walkways, and signage.

Cafeteria, Dormitory, and Retail Store

Coordinator: Curtis Jermstad

Feeding and lodging is part of the package the Academy provides to on-site customers. The cafeteria staff furnishes meals and dormitory rooms to support site operations and operates the Academy's retail store.

Number and Types of Employees	
Full-Time	Part-Time
2	0

In FY 2016, this Section:

- Operated 286 days providing 21,192 meals to students, staff, walk-in customers, and inmates.
- Returned to cooking and serving breakfast and lunch.
- Worked diligently in creating a continuous cycle menu for students and guests.

- Installed new Academy store retail display racks.
- Offered new products to customers resulting in \$57,733.60 of sales revenue.
- Provided 4,141 dorm rooms for 5,212 students.
- Assisted with booth/store management during annual S.C. Firefighters' convention in Myrtle Beach.

S.C. Emergency Response Task Force: Firefighter Mobilization and Urban Search and Rescue

Section Chief: **Vacant**

The S.C. Emergency Response Task Force continues to provide initial and long-term responses to natural and man-made disasters. The program's primary focus is to provide immediate resources to local and regional fire service agencies. We continue into our eighth successful year of partnering with the S.C. National Guard to offer a statewide helicopter rescue program. This asset is one of few in the country, and is responsible for rescuing 26 people during the North American Storm Complex of October 2015.

North American Storm Complex - October 2015

In October 2015, South Carolina was faced with a "1,000 year" flooding event. Our state had not seen a natural disaster of this magnitude since Hurricane Hugo in 1989. During the course of nine days, 49 members of South Carolina Task Force 1 participated in numerous rescue and reconnaissance missions.

Firefighter Mobilization

Per S.C. Code of Laws (23-49-10), this statewide mutual aid assistance agreement can be utilized by the state's 46 counties. The system allows for firefighting and rescue resources to be effectively and efficiently moved throughout the state to assist during a local, regional, and statewide disasters or emergencies.

New Partnerships

In FY 2016, new partnerships were fostered to further grow the Task Force. Relationships were made with the South Carolina State Guard and local agencies in order to increase capacity and membership.

Training and Scheduled Events

The Task Force continued to train in each quarter of FY 2016. To focus on rescue and team basics, Task Force leaders launched a "Core Competency" initiative. More than 1,800 man hours were spent on FY 2016 team training exercises. An additional 600 man hours were spent attending scheduled events and meetings.

Staffing

In November 2015, several long-time members of the team departed after many years of valuable service. The State of South Carolina is thankful for their service, and legacy, as the program continues to refocus and make plans for future expansion and growth. In addition to the partnerships mentioned above, fire service recruiting continued, including the annual recruiting drive at the 2016 Fire Rescue Conference.

LLR staffing includes one full-time and two part-time administrative coordinators. A new management team will be in place in FY 2017.
