

2006 INTERNATIONAL FUEL GAS CODE

Number	Section	New / Continued
IFGC 2006 01	G505.1.1	Continued (IFGC 2000 02)

SOUTH CAROLINA MODIFICATIONS TO THE 2006 EDITION OF THE INTERNATIONAL FUEL GAS CODE

As authorized by Section 6-9-40 of the South Carolina Code of Laws, 1976 as amended, the South Carolina Building Codes Council has approved the following modification to the 2006 edition of the International Fuel Gas Code (IFGC). Approved modifications under Section 6-9-40 are mandatory for all local jurisdictions and must be incorporated into the International Fuel Gas Code.

The modification was continued from the prior building code cycle and is distinguished by a note and reference to the prior modification number.

Modification Number: IFGC 2006 1.

Section: G505.1.1 Commercial cooking appliances vented by exhaust hoods.

Modification: An exception was added to the section to allow an interlock between cooking appliances and exhaust hood systems as an option when the appliances are of the manually operated type and are factory equipped with standing pilot burner ignition systems.

The modified section now reads: Where commercial cooking appliances are vented by means of the Type I or Type II kitchen exhaust hood system that serves such appliances, the exhaust system shall be fan powered and the appliances shall be interlocked with the exhaust hood system to prevent appliance operation when the exhaust hood system is not operating. Where a solenoid valve is installed in the gas piping as part of an interlock system, gas piping shall not be installed to bypass such valve. Dampers shall not be installed in the exhaust system.

Exception: An interlock between the cooking appliance and the exhaust hood system shall not be required for appliances that are of the manually operated type and are factory equipped with standing pilot burner ignition systems.

Reason: Manually operated commercial cooking appliances are in operation only when kitchen staff is present. An inoperative exhaust system, therefore, is apparent to kitchen personnel.

Note: This modification includes the additional language approved by modification IFGC 2003 02.

Proponent: Piedmont Natural Gas.

Effective Date: July 1, 2005.
