INSTRUCTIONS AND REQUIREMENTS FOR RN OR LPN LICENSURE BY ENDORSEMENT

Compact State Information
South Carolina is a member of the Nurse Licensure Compact (NLC). The NLC allows a registered nurse or licensed practical nurse licensed in a Compact state to practice across state lines in another Compact state without having to obtain a license in the other state unless the nurse moves and declares the new compact state as his/her new primary state of residence. It is important to remember that the NLC requires nurses to adhere to the nursing practice laws and rules of the state in which he/she practices under his/her Compact license. If a nurse moves from one state to another and establishes residency, the nurse must apply for licensure in that state. In the case of electronic nursing practice (telenursing), the nurse must adhere to the practice standards of the state in which the client receives care. Please visit the National Council of State Boards of Nursing (NCSBN) Web site (www.ncsbn.org) for a list of states that have implemented the Compact.

“Primary state of residence” as defined by the Compact means the “person’s declared fixed permanent and principal home for legal purposes; domicile.” Proof of primary residence may include but is not limited to 1) Driver’s license with a home address; 2) Voter registration card displaying a home address; 3) Federal income tax return declaring the primary state of residence. 4) Military Form # 2058- state of legal residence certificate; or 5) W2 from US Government or any bureau, division or agency thereof indicating the declared state of residence.

If your declared primary state of residence is another Compact State, you are not eligible for RN or LPN licensure in South Carolina.

- If a party state issues a temporary permit or temporary license to an endorsee, that permit or license shall confer the same rights and privileges of nursing practice as does the permanent license among party states.
- NURSYS will not track temporary licenses and the employer must verify licensure directly from the state issuing the temporary permit/license.

Information for Applicants
A current South Carolina license, temporary license or compact multistate license is required to practice nursing in this state. Orientation is considered the practice of nursing in South Carolina. Therefore, all nurses must possess a current South Carolina license and/or temporary license or compact multistate license before beginning orientation (including classroom instruction and reading policies and procedures). It is a violation of the Nurse Practice Act to begin orientation without the proper license and can result in action by the Board. A temporary license authorizes practice in this state with privilege of title or abbreviation after name and is valid for sixty days.

If you were previously licensed by the SC Board of Nursing as an LPN or RN, do not complete this application form. Visit the Board of Nursing Website at www.llr.state.sc.us/pol/nursing for a Reactivation/Reinstatement application to reinstate your LPN or RN license.

An applicant for licensure by endorsement whose license in another state is currently restricted to prohibit the practice of nursing by any disciplinary action (i.e. suspension, revocation, or other action) shall not be considered for South Carolina license until the license from the other state of discipline is reinstated to permit the practice of nursing.

EMPLOYER CERTIFICATION
Verification of Competency and Nursing Practice Hours Worked

‘Competence’ means the ability of a licensed nurse to perform safely, skillfully, and proficiently the functions within the role of the licensee. The role encompasses the possession and interrelation of essential knowledge, judgment, attitudes, values, skills, and abilities, which are varied and range in complexity. Competence is a dynamic concept, changing as the licensed nurse achieves a higher stage of development, responsibility, and accountability within the role. [Nurse Practice Act §40-33-20 (22)]-
