Mailing Address: _____

LOCATION OF SUPERVISED PRACTICE

Facility Name: _____ Facility Phone: _____

Address: _____

Type of Work Experience: _____

Start Date: _____ End Date: _____ Position Title: _____

Planned over two years

The following requirements regarding supervision must be met:

The supervised clinical experience requires completion of a minimum of one thousand one hundred twenty (1120) hours of post-master's clinical experience and post master's clinical supervision in the practice of addiction counseling performed over a period of not fewer than two (2) years. Of the one thousand one hundred twenty (1120) hours documented, there must be a minimum of one thousand (1,000) hours of direct client contact with clients presenting with addiction issues and a minimum of one hundred twenty (120) hours of supervision by a licensed addiction counselor supervisor or other qualified licensed mental health practitioner approved by the Board. A minimum of sixty (60) hours of the supervision hours must be individual/triadic, and the remaining sixty (60) hours may be individual/triadic or group. At the conclusion of the supervised clinical experience, you must submit the Board form documenting that this supervision has been obtained.

Supervision is defined as:

(1) "Supervision" means direct contact between a supervisor and an associate or other person requiring supervision under this chapter. Supervision may be conducted either in person or via a HIPAA compliant technological medium. During this time, the person supervised appraises the supervisor of the diagnosis and treatment of each client seen during the supervisory process. The supervisor provides the supervised person with oversight and guidance in diagnosing, treating, and dealing with clients, and the supervisor evaluates the supervised person's performance. The focus of a supervision session is on raw data from clinical work which is made directly available to the supervisor through such means as written clinical materials, direct (live) observation, co therapy, audio and video recordings, and live supervision. Supervision is a process clearly distinguishable from personal psychotherapy and is contrasted in order to serve professional goals. The major focus in supervision of supervisors is on the development of supervisory abilities as opposed to an exclusive focus on clinical skills.

(2) "Group supervision" means a regularly scheduled meeting of not more than six (6) supervisees, and an approved supervisor, for a minimum of two (2) hours.

(3) "Individual/triadic supervision" means a meeting of one (1) or two (2) supervisees with a supervisor for a period of at least a one (1) hour session.

APPLICANT/ASSOCIATE CERTIFICATION

I have read and understand the supervision requirements, and understand that as an Associate I can only provide addiction counseling services while being supervised. I also understand that I must provide the completed supervision forms at the conclusion of the period of supervision. If I obtain a new supervisor, I understand that I must provide both a Confirmation of Supervision Form and a new Plan for Clinical Supervision Form to the Board for approval before continuing to practice and in order to obtain clinical contact and supervision hours.

Applicant/Associate Signature: _____ **Date:** _____

SUPERVISOR/QLMHP CERTIFICATION

I have read and understand the supervision requirements, and agree to provide supervision in accord with Board statutes and regulations to the above LAC applicant.

Signature of Supervisor/QLMHP: _____ **Date:** _____
(Original signature required)

SUPERVISOR CANDIDATE CERTIFICATION
