

OBSTETRICS AND GYNECOLOGY SCOPE OF PRACTICE GUIDELINES

Heart

Valvular Heart Disease (SBE Prophylaxis)

Screening for Disturbance of Rate and Rhythm

Appropriate referral of patients who are suspicious for cardiac disease

Systemic Hypertension

Management of Hypertension

Appropriate referral of patients who are suspicious for cardiac disease

Blood: Patients requiring transfusion are to be evaluated by SUPERVISING PHYSICIAN

Anemias

Hypercoagulable states

Alimentary Tract

Symptoms and Signs of Gastrointestinal Disease and Dysfunction

Minor Disease of the Esophagus

Minor Disease of the Stomach and Duodenum

Obstetrics and Gynecology Rev. August 2019

Minor Disease of the Small Intestine

Minor Diseases of the Colon and Rectum

Anorectal Conditions

Liver, Biliary Tract and Pancreas

Screening for Diseases of the Liver

Screening for Diseases of the Biliary Tract

Screening for Diseases of the Pancreas

Breast

Benign Disorders of the Breast

Evaluation of Nipple Discharge

Screening for Carcinoma of the Female Breast

Gynecology

Dysmenorrhea and Menstrual Disturbance

Screening for Gynecological Cancer

Evaluation and Management of Cervical Dysplasia

Obstetrics and Gynecology Rev. August 2019

Benign Diseases of the Cervix

Premenstrual Dysphoric Disorder

Menopausal and Perimenopausal Symptoms

Postmenopausal Vaginal Bleeding

Osteoporosis

Diseases of the Ovary

Polycystic Ovarian Syndrome

Endometriosis

Pelvic Inflammatory Disease

Diseases and Disorders of the Uterus

Vaginitis, Vaginismus and other Disorders of the Vagina

Sexually Transmitted Diseases

Sexual Assault

Contraception and Contraceptive Devices (including fitting, insertion, and removal when indicated)

Obstetrics and Gynecology Rev. August 2019

Counseling for Sterilization

Counseling regarding Operative Gynecological Procedures

Pediatric Gynecology

Hospital Rounds on the Gynecological patients

Obstetrics

Preconception counseling

Counseling for unwanted pregnancy

Routine prenatal care

Uncomplicated Intrauterine Pregnancy

"Sick Visits" in the Obstetrical patient (i.e. Viral syndromes, infection, etc)

Hyperemesis

Pregnancy Induced Hypertension

Gestational Diabetes

Premature Labor (Referral to M.D. If delivery imminent)

Ruptured Membranes Evaluation

Obstetrics and Gynecology Rev. August 2019

Post Partum Care

Spontaneous Abortion (refer to M.D. For surgery if necessary)

Ectopic Pregnancy (refer to M.D. For surgery if necessary)

Molar Pregnancy

Hospital Rounds for Obstetrical Patients

Surgery

Preoperative Evaluation and Treatment

Postoperative Evaluation and Treatment

First Surgical Assistant

Hospital Rounds on Post Surgical Patients

Allergic and Immunological Disorders

Allergic Diseases and Conditions

Arthritis and Musculoskeletal Disorders

Degenerative and Crystal-Induced Arthritis

Muscle Strains and Spasms

Obstetrics and Gynecology Rev. August 2019

Pain Syndromes

Soft Tissue Injuries

Sports Physicals

Fluid and Electrolyte Disorders

Diagnosis of Fluid and Electrolyte Disorders

Treatment of Specific Fluid, Electrolyte and Acid/Base Disorders

Fluid Management

Urology

Urological Evaluation

Evaluation of Hematuria

Urinary Tract Infections

Screening for Renal Lithiasis (with appropriate referral)

Screening for Malignant Urinary Tract Disorders

Nervous System

Headache

Obstetrics and Gynecology Rev. August 2019

Weakness and Paralysis (initial workup and appropriate referral)

Peripheral Neuropathies (screening with appropriate referral)

Psychiatric Disorders

Psychiatric Assessment

Common Psychiatric Presentations (Anxiety, Depression, PTSD)

Substance Use Disorders

Endocrinology

Common Presentations in Endocrinology (galactorrhea, hirsutism etc.)

Diseases of the Thyroid Gland

Metabolic Bone Disease

Diabetes Mellitus

Hypoglycemia

Lipid Abnormalities

Lipid and Lipoproteins

Lipid Fractions and the Risk of Coronary Artery Disease

Obstetrics and Gynecology Rev. August 2019

Therapeutic Effects of Lowering Cholesterol

General Problems of Infectious Disease

Fever of Unknown Origin

Animal and Human Bite Wounds

Sexually Transmitted Diseases

Acute Infectious Diarrhea

Viral Diseases

Gastroenteritis

Infections Caused by Bacteria

Infections Caused by Chlamydiae

Syphilis

Helminthic Infections

Candidiasis

Histoplasmosis

Coccidioidomycosis

Obstetrics and Gynecology Rev. August 2019

Antifungal Therapy

Disorders Due to Physical Agents

Burns (1st degree and 2nd degree only)

Other Disorders Due to Physical Agents

Health Maintenance and Disease Prevention (including but not exclusive to the following)

Mental Health

Physical Abuse

Fatigue and Stress

Weight Loss

Substance Abuse

Pain

General Wellness, Disease Prevention

Geriatric Medicine

General Principles of Geriatric Medicine

Evaluation of the Elderly

Obstetrics and Gynecology Rev. August 2019

Cancer on diagnosis all cancer patients are to be discussed with M.D. And appropriate referral made.

Incidence and Etiology

Prevention and Screening of Cancer

OB/GYN

Management of contraceptive devices

Fetal Nonstress test interpretation

Destruction/removal of vulvar or vaginal lesions

Pessary fitting and management
